

AN ALMOST-MYTHICAL HAVEN FOR MUSIC

since 1986, Mapleshade is a mansion-studio in the Maryland woods. Greats recording here include Sunnyland Slim, Shirley Horn, Larry Willis, Junior Brown, Clifford Jordan, Slide Hampton, David Murray, Patato, Jimmy Cobb, Frank Foster, Joe Derrane and Frankie Gavin.

Our relaxed, one-of-a-kind studio is all analog—like that warm Sun Studio or Blue Note sound of the '50s—but even clearer and more alive. Here, artists lay down vital, unrestrained music. Our CDs blur the barrier between the recording studio and the performance stage.

Our more than 100 CDs encompass a wide range of music: jazz, classical, rhythm and blues, Celtic, blues, gospel, world and more. Each is intimate and personal, an open window into the soul of the music. We approach music as art, not commodity.

15 years of scientific experimentation has led us to startling insights into recording and music playback. Out of this research, we've created a focused selection of handcrafted audio cables and accessories to make music listening more involving, more exciting. Mapleshade offers state-of-the-art audio technology you'll find nowhere else.
